## SUMMARY

Senior Product Manager with 6+ years across marketplaces, FinTech and B2C apps. Launched Argos's third-party marketplace (**70k+ products, with a public push to 130k+**) and built AI-developed internal tools as a founding member of Argos Labs. First Class Imperial graduate with a hands-on data and technical background.

## SKILLS

**Product:** Product strategy, roadmapping, product discovery, user research, A/B testing, agile delivery, stakeholder and vendor management, marketplace platforms, API integrations

**Data:** SQL, PostgreSQL, BigQuery, MongoDB, R, Excel, Amplitude, Redash, Splunk, Google Analytics

**AI & prototyping:** Claude, v0, Google AI Studio, AI-led development and prompt-to-UI workflows

**Development & design:** JavaScript, React, Redux, HTML, CSS, Bash, Figma, Miro, Jira, Jira Product Discovery

## EXPERIENCE

**Sainsbury's (Argos) | Senior Product Manager**

Jan 2025 - Present

### Argos Marketplace (Mirakl)

- Lead PM for Argos's first third-party marketplace, from vendor selection (RFP) through to launch, coordinating 5+ teams; now a new commission revenue line for Argos
- Scaled range from ~1,000 launch SKUs to **70k+ live products**, laying the groundwork for Argos's announced push to 130k+, by designing a repeatable, gated category expansion process across Commercial, Content, PIM and Integration
- Built the business cases for the platform investment with director-level stakeholders, including vendor cost estimates
- Designed the third-party (3P) product data model and taxonomy, recommending a Mandatory+ attribute model and Google Taxonomy so sellers could onboard easily while meeting downstream data needs
- Launched operator-led discount campaigns for Black Friday; caught a date/time pricing defect and an overlapping-discount risk in pre-prod and resolved both through guardrails and seller enablement rather than engineering rework
- Established platform governance (294-setting configuration tracker, risk-tiered change runbook, access controls), moving the platform from launch to steady-state operation

### Argos Labs & AI Tooling

- Founding member of Argos Labs and product lead on Partner Hub, an internal PRM built in **~6 weeks with one engineer** using AI-led development (v0), avoiding **~£300K in build and licence costs** versus buying a commercial platform
- Migrated all ~800 partner records, achieved full adoption across the account management team and **retired the legacy spreadsheet**, which had been failing at current seller volume
- Brought in by a Group PM to lead discovery on an AI-enabled product-launch workflow: ran workshops from problem framing to a problem-solution tree, scoped a single-workflow MVP and am building the prototype

**YoungPlanet | Product Lead**

Oct 2022 - Jan 2025

- Sole product lead for a circular-economy app for parents, owning strategy and monetisation with the founders
- Took the app from ideation and MVP to **160,000+ downloads** and **35,000+ listings** across the UK
- Conceived and led an in-app B2B offering, securing clients including Travis Perkins (40k employees), plus in-app ad inventory that won a £12,000 contract
- Led international launch into two European markets, covering translation, comms and GDPR

**PMC Retail | Product Manager**

Sep 2021 - Oct 2022

- Owned a £500k+ portfolio of payments, receipts and fiscal solutions for retailers including Estée Lauder, Crew Clothing, Arsenal FC and Games Workshop
- Managed 3 product owners and ~50 developers, designers and analysts across Cloud, Mobile and Hybrid teams
- Delivered IE, a retail solution handling **70% of Crew Clothing's transactions in England** and **£2m in revenue within 3 months**

**Mashroom | Junior Product Manager**

Oct 2020 - Aug 2021

- Grew a PropTech platform for DIY landlords from **<1,000 to 20,000+ users** in 11 months, including via SEO
- Launched the first revenue product (deposit replacement) and lifted its conversion **20%** via A/B testing
- Ran agile delivery, epics and prioritisation for a team of 8 developers

**Nova Money | Product Analyst**

Feb 2020 - Oct 2020

- Grew the user base of a financial-literacy app by 20% through a full redesign and data-led optimisation

## EDUCATION

**London School of Economics and Political Science**, MSc Management (Distinction)

2019 - 2020

**Imperial College London**, BSc Biological Sciences with Management, First Class (Joan Woodward Prize)

2016 - 2019

**The Leys School**, A-levels: A\*, A\*, A

2011 - 2016
